

Follow the instructions below to complete and submit your mid-semester peer feedback:

Part 1:

Go to the link below and fill out feedback response for yourself and each of your team members. You should write down answers about yourself and then submit a form for each of your teammates. The form will ask you to select 3 characteristics that you feel best describes that teammate and then to select one area that you would like to see them improve. (E.g. If you have a team of seven then you should submit the form eight times which includes your self-assessment). Once completed you will receive your aggregate anonymous feedback from your teammates to be used in class.

- **Sec 08pilot Glen:** <https://forms.office.com/r/VAy2pHAw49>
- **Sec 09pilot Judith:** <https://forms.office.com/r/cEAnEH6JfR>
- **Sec 10pilot Tracy:** <https://forms.office.com/r/PyUfUfCLVc>

Part 2:

Complete the following form and submit it to Gradescope.

In the table on the next page:

- (1) list all the members of your team **including yourself**
- (2) rate each team member (**including yourself**) using the instructions below.

You have a hypothetical bonus of \$1,000 per person to distribute (e.g., \$4,000 for a 4-person team, \$5,000 for a 5-person team). In the *Bonus \$* column, indicate how you would distribute this bonus among the team members based on their overall contribution both in terms of quantity and quality to the project.

In the column labeled *Comments* provide relevant comments. Your comments are an important part of the evaluation.

Notes

1. It is not important for each individual in a team to excel in all aspects of what the team does.
2. This should be your own evaluation. It is not appropriate to discuss your evaluation with other team members prior to turning in the form.
3. The replies will be read by your instructors, but the detailed forms will otherwise be kept confidential.
4. Please answer objectively and honestly.

Your name: Hayden Fuller

Project Title: Team Seven Solar powered air compressor

Name	Bonus \$	Comments, area of greatest contribution	
Hayden	1000	New ideas and changes	×
Kismet	1000	Keeps group organized	×
Nate	1000	Gets work done and keeps the group moving forward	×
