01/17

Grateful for my housemates, we had Taco Bell breakfast together! I've formed a connection with them I was really missing through most of college. Grateful for this weekend, actually kinda busy with so many fun options overlapping today, nice to have options. Grateful to be back at RPI and have all these options opened back up, home is nice but when I'm not visiting friends, I fall into a pretty boring routine.

01/18

Grateful for a fun night playing poker with friends, it was nice and relaxing spending time together. Grateful for a slower day after how packed yesterday was, feels like a chance to breathe. Grateful I don't have to be up early tomorrow, don't have to stress about getting to bed early

01/19

Grateful for the long weekend, more free time is always better. Grateful my morning meeting went smoothly and our accreditation is nearly done, that's one massive thing checked off my list. Grateful for lots of good ice cream and a Transformers movie with friends!

01/20

Grateful for this class being canceled today, I just so happened to have a conflict today, nice that I don't have to miss it. Grateful to be cooking an easy dinner tonight, felt like a break more than a chore. Grateful for hot chocolate at the Union while it's so cold out.

01/21

Grateful for kinda easy Wednesdays this semester, but also grateful that I do have a class so I can't sleep the whole day. Grateful for another night meeting new people and hanging out with friends, it's been a great start to this semester

W2

due Jan 30

inventions! Oops, kinda forgot that the first... most days

01/24

Grateful for a fun hockey game, even if we choked it... Grateful for such an awesome concert last night! Grateful for getting to hang out with people after getting back

01/25

Grateful that everything is canceled today so I can be productive at home. Grateful for lots of leftovers so I don't have to put any effort into dinner. Grateful to not need to wake up as early tomorrow

01/26

Grateful for the snow day because it's a nice break. Grateful that I had the time to get laundry done and clean my room. Grateful that this also moved a 6:30 meeting online so I didn't have to miss dinner

01/27

Grateful for Em messaging me and hopping on call this morning, was a great start to the day ^^
Grateful for this ability to talk to my friends from halfway across the country so easily. Grateful that I discovered the power of the scarf, this thing is a life saver.

Due Feb 06

people!

01/31

Grateful for Em, Smitty, and Charlie, I hung out with them in discord for most of the day, and yesterday was super stressful deadlines, so relaxing with them was really nice!

02/01

Grateful for Poppy, Neeko, and Tony, I was at Code Red (nerf) today and had a great time, plus got to try out Neeko's pufferfish, it's awesome lol, really does inspire me and make me wanna design my own blasters too

02/02

Grateful for Dante and Luca for the fun we had at Laser tag, and for Adrian for just chilling and relaxing after we got back, it's been a fun but very busy weekend,

02/03

Grateful for Lex, Roman, and Jackson2, only just met them but saw Iron Lung in theaters and then went home and watched the gameplay video. Most of my friends graduated and I don't meet new people very often anymore so it's nice when it happens

02/04

Grateful for Jackson2, Luca, and Dante, looks like they'll be my roommates next semester, can't wait!

02/05

Grateful for Erica, she's really kinda changed my life for the better, and I think I'm helping her too, it's nice to have someone like her <3 Grateful for Willow and Sam, I don't see them often anymore but it's often the highlight of my day when I do ^^

Due Feb 13

good news!

02/07

My friend was finally able to start HRT, they're back in KY, so it's not been the easiest process, but this is a huge step for them! Also learned it's YouTuber Jacksepticey's birthday, so that's a cool coincidence. Winter carnival is tomorrow, and sounds like a lot of friends will be going together!

02/08

There were many dogs at the winter carnival, they were all extremely sweet and awesome ^^ Didn't have much time at code red but it was a really fun half hour or so, oh and Super Bowl watch party went great!

02/09

Finally found a partner for my IOT final project! Very glad I don't have to do this alone, and they already had a proposal drafted up! Talked to my grandpa, he's doing good!

02/11

Graduate meeting with coffee and donuts in the Mercer lab today! Figured out what my issue was in IOT lab. Heard some good things about classes I'll be taking next semester

02/13

FSL hockey night! Got a good few friends going, sounds like a good time! My DE office hours today were very productive, I got caught up on loads of work! Tomorrow is Valentine's Day, going to spend some quality time with Erica ^^

03/24

03/25

Got up to go to the armory today for the provost picnic, first time leaving the house in weeks, I'm very grateful for... all of that. Grateful for the beautiful weather. Grateful for all the friends I saw there. Grateful that I think I'm ready to start getting back on track.

03/26

Grateful for GM week, got to vote and get my mug. Grateful the GM week mugs this year are AWESOME, best we've had in my 5 years here, and I was there just in time for a fresh keg of root beer. Grateful that my professor I talked to today was very kind and understanding, I might be able to catch up and pass this class.

03/27

Grateful that the inspector this morning was.. extremely chill? They're making my job easy which I'm *very* grateful for at this point in this semester. Grateful for you for being so kind and understanding with how far behind I am here and helping guide me to getting caught up. Went out to dinner with friends tonight, grateful that I said yes after missing these kinda things for weeks.

Due Apr 03

03/28

Thought I had my first therapy appointment today, did not realize that not only the time, but also the date was rescheduled, but I'm kinda grateful for this because it got me up and out of the house to start a tired but productive day. Grateful that I got to go to CT with some friends for a fun day of nerf. Grateful for my parents, they've kinda been a pain this semester, but I'm lucky to have them,

03/29

Went to Code Red today for the first time in a while, it was good seeing friends again, and they were happy to see me, and I'm very grateful for that. Grateful for the nice weather walking back. Grateful for an easy day where I can get some work done.

03/30

Grateful for an easy day, I got excused from taking my AEC exam today, and my IOT professor is at a conference. Grateful for the extra 4 hours this gave me to get work done. Grateful for beautiful weather so I could open the windows and feel the breeze coming in,

04/01

Glad my lab today was easy, so I have very little work to do in this class by Friday, nice to have a little less on my plate. Friend of mine has been tired lately, today was their first birthday away from home, grateful they opened up and talked to me, hugs were good.

04/02

Made my monthly trip to the bar with some friends, it's always nice to hang out. Didn't have any drinks, just had a good time talking :)

W12

Due Apr 10

04/04

Again, I thought I had a therapy appointment today, showed up, doors were locked, sent an email, no response for half an hour, so that was another early wake up and an hour “wasted”, but again, grateful for waking up early making me have a nice productive day. Grad council held a union game night, lots of tournaments, it was super fun, and I’m very grateful that I got to hang out with some friends that I haven’t been around much this year. Came home to a backyard bonfire, had a bunch of friends over, feeling very grateful that I finally found my group at RPI,

04/05

Grateful for another productive day! Hosted two events today that went well, and I’m grateful for everyone that helped make them happen and everyone that showed up. Went to code red today, grateful that I eventually found the time to join this club, it’s been a great time and the friends I’ve met here have now extended far beyond the club itself. Grateful for a good full night sleep after going to bed early last night

04/06

Grateful both of my classes were off today. Grateful for warm weather! Especially since I didn’t realize class was canceled so at least I enjoyed the walk. Grateful I’ve had some “productive relaxation” tonight, probably spent less than an hour hanging out with friends, but feeling really refreshed and ready for tomorrow

04/07

Grateful for a nice walk to class, and very glad that I showed up to both my classes today. Grateful to be cooking an easy and good dinner tonight. Grateful for friends/roommates being productive helping out around the house

04/09

It’s warm again! Walked to class with a bunch of friends, had some nice talks. Grateful I had something that I had to sit around and wait for, it was a good chance to take a break and paint my nails ^^ Friend just commented that they love my playlist <3

W13

Due Apr 17

04/11

Grateful to GZ and everyone for the Touch Grass Music Festival! Grateful for Mel for running the FSL day of service! Grateful for all my friends and alumni that are here to hang out! We had a great morning at the day of service, a great walk down to the music festival, great time hanging out, great walk back :D

04/12

Grateful for friends that I went to get Dave's hot chicken with, it was really good! Grateful that I got to go thrifting with a friend, he was super helpful picking things out.

:(

04/16

I'm extremely grateful I went to Erica's today, and I'm grateful she was able to help me be so productive. I've been so burnt out and tired in general, but especially after losing my phone, this week has SUCKED. But I was productive today, I'm catching up, and I'm grateful for that.

04/17

I'm grateful for the concert!!! I went to see Femtynal in NYC with a bunch of friends, gotta be top three concerts I've ever been to. It was a great drive down and a great drive back. I'm grateful for the wonderful weather in NYC, we hung out afterwards, got some taco truck stuff, went to the waterfront, took some awesome pictures together with the skyline! Grateful for Jackson and Poppy in particular, this was their first concert ever, overall a great night!

W14

Due Apr 24

04/18

Grateful for a productive day, went to the farmers market with Ben and got the house 15 gal of milk. Grateful for battenkill creamery, they have really really good chocolate milk and it's cheaper than regular milk in the quantities that we buy it. oh, and grateful for ANOTHER CONCERT! living tombstone was awesome. I don't really listen to their music or that kinda music, but it's fun, and it's really fun with friends :D

04/19

Grateful for last night, was randomly invited to play mario kart at Maya's place, I stayed pretty late, I went to Erica's later that night, it was a crazy night, I'm so sleep deprived right now, but it was so worth it lol. It's also given me a whole lot of motivation to be super productive today ^^ Also went to code red to chill with friends, and grateful to have a chill day, was nice while I was so tired. Afterwards I met with my IOT partner, got a whole lot done, I think we can do good on this project and I think I can pass this class.

4/20

Grateful for a fun time with friends last night. Grateful for a long productive day catching up on more work, and grateful for another productive meeting with my IOT lab partner, he's doing a lot for this project, don't think I could be doing this well without him lol
